

Nourhan Adel Sayed

Frontend Developer

+20 102 984 3501 noura.adel.sayed.me@gmail.com Norhan Adel Nourhan Adel Cairo, Egypt

SUMMARY

Frontend Developer with professional experience building modern, responsive, and scalable web applications using React.js, Next.js, TypeScript, and modern UI frameworks. Experienced in integrating RESTful APIs, authentication systems, state management, and performance optimization. Currently working remotely with a Saudi-based company while delivering high-quality user experiences and maintainable code.

EXPERIENCE

Frontend Developer—Leader of Pioneering (Remote, Saudi Arabia) Feb 2026 – Present

- Develop and maintain scalable web applications using React.js and Next.js.
- Build responsive and reusable UI components using Tailwind CSS and modern frontend practices.
- Integrate RESTful APIs and GraphQL services.
- Implement authentication and authorization workflows.
- Collaborate remotely with designers, backend developers, and project managers.
- Optimize application performance and user experience.
- Participate in code reviews and feature planning.

Front-End Developer Intern — SEF Academy, Cairo Aug 2023 – Sep 2023

- Developed a Student Management System with ID-based enrollment and progress tracking.
- Built an exam system with automatic grading and real-time results display.
- Implemented CV generation and PDF download functionality.
- Integrated an automated certificate issuance system.

EDUCATION

Bachelor of Computer Science — Ain Shams University, Cairo 2024

- Built data-driven applications using modern web technologies.
- Applied machine learning techniques in practical projects.
- Strong foundation in Data Structures & Algorithms.

PROJECTS

- Online Library System (Graduation Project) [Link](#)
 - Full-stack platform using React.js, Node.js, and MongoDB.
 - Implemented JWT authentication and Google Books API integration.
 - Developed KNN-based recommendation system.
 - Advanced search, downloads, and responsive UI with SCSS.
- Amazon-like E-commerce Platform [Link](#)
 - Developed a full e-commerce system with authentication and cart features.
 - Implemented product filtering and search functionality.
 - Integrated Cloudinary for image handling.
 - Used Redux Toolkit for state management.
- Bronzer Starz Bakery [Link](#)
 - Developed full-stack bakery website using React.js and Node.js.
 - Implemented checkout and payment system.
 - Built admin dashboard for managing products and orders.
- Al-Ahly Momken Management System [Link](#)
 - Built a multi-role management system with advanced admin controls.
 - Developed reporting features for performance tracking.
 - Implemented filtering, data analysis, and workflow automation modules.
